PROFESSIONAL SUMMARY

Computer Engineering student and full-stack developer with hands-on internship experience in Java, PHP/Laravel, MySQL, React, and Flutter. Built features for a Point-of-Sale application, a student collaboration platform, and cross-platform mobile apps. Industrial Hackathon 2025 winner and published researcher with strong OOP, DSA, and cybersecurity fundamentals. Seeking a Software Developer / Full Stack Developer role.

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern
Vhiron Technologies (Part-time) **Apr 2026 – Jul 2026, Mumbai, India**

- Built features for PulsePOS, a Point-of-Sale app, using PHP, Laravel, and MySQL.
- Handled database design, backend development, debugging, and testing.

Java Development Intern
ShadowFox (Remote) **Jun 2025 – Jul 2025**

- Developed console-based applications in Core Java, applying object-oriented programming principles and structured logic building.

Cybersecurity Intern
Acmegrade (Remote) **Jun 2024 – Aug 2024**

- Executed penetration testing and vulnerability assessments on Windows XP/7 test environments.

Backend Development Intern
Code Infinity Software Solutions (Remote) **Jun 2024 – Jul 2024**

- Developed dynamic web pages and implemented backend functionality using PHP.

EDUCATION

Bachelor of Engineering in Computer Engineering
A. P. Shah Institute of Technology, Thane **Sep 2025 – Sep 2028 (Expected)**

Diploma in Computer Engineering
Vidyalankar Polytechnic, Mumbai • Grade: 90.47% **Jul 2022 – Jul 2025**

Secondary School Certificate (SSC)
BSM's English Medium School, Maharashtra • Grade: 90.80% **Jun 2014 – May 2022**

ACADEMIC PROJECTS

Collabthon – Student Collaboration Platform (Full Stack Web Application)
Python, FastAPI, MySQL, SQLAlchemy, JWT, Google OAuth 2.0, Stripe, Redis, Celery, JavaScript

- Built a platform connecting college students for project collaboration, with skill-based matching, profiles, project posting, requests, search, and notifications.
- Developed a FastAPI REST backend with JWT authentication, Google OAuth 2.0 login, Stripe subscription plans, and analytics endpoints. GitHub: github.com/rohanshelar991/collabthon

GST Billing SaaS App (Mobile & Web Application)
Flutter, Dart, Firebase Auth, Cloud Firestore, Firebase Analytics, Firebase Messaging, Provider

- Built a multi-company GST billing app with Firebase Authentication, per-company data isolation, and CRUD for clients, products, invoices, and reminders.
- Implemented a GST engine with 0/5/12/18/28% slabs, applying CGST + SGST for same-state and IGST for inter-state invoices, with payment tracking and balance amounts.
- Added recurring invoices with auto-generation, real-time Firestore dashboards, reports (monthly revenue, GST summary, top clients), and CSV export.
- Secured data with role-aware Firestore rules (admin/staff). GitHub: github.com/rohanshelar991/gst-billing

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, PHP, C++, C#, Dart
Web & Mobile: React.js, Node.js, Laravel, HTML, CSS, Tailwind CSS, Flutter, Android Studio
Databases: MySQL, MongoDB, Firebase
Tools: Git, GitHub, VS Code, phpMyAdmin
Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Penetration Testing, Vulnerability Assessment

ACHIEVEMENTS & PUBLICATIONS

- **Winner, Industrial Hackathon 2025** – Vidyalankar Polytechnic: Developed a Desk Time Activity Tracker using C# and Flutter for productivity monitoring.
- **Research Publication** – International Journal of Research Publication and Reviews (IJRPR)
